PROGRAM & AWARD INFORMATION

Award Description:

The Associate of Science in Information Technology Management provides students with a comprehensive education in teamwork and leadership, networking and security, and information systems management. This curriculum includes hands-on experience in virtual environments that simulate real-world scenarios in installation, administration, and management of computer and network systems. This pathway includes preparation for industry-recognized certifications geared towards preparing students for a successful career in IT roles that are vital for building, protecting, and maintaining information and technology assets.

Program Description:

The expanding field of Information Technology (IT) comprises various facets, including network administration and cybersecurity, telecommunications, computer support, computer science, software programming, and system analysis and design. Almost every company's business strategy relies on the use of information systems in order to succeed and grow into the future. For this reason, San Diego City College's Computer Information Systems Program offers a bridge between business, computer science, and information technology.

The Computer Information Systems program offers transfer and certification programs in the information system and information technology fields. These programs include computer literacy; application, web, and database programming; database administration; and a variety of vendor specific and vendor neutral industry-standard certification training. The roles of the various information system professionals are to design, implement, operate, and maintain a computer information system. These professionals also provide services in the networking areas such as systems engineers, systems administrators, security analysts, and network specialists.

Graduates of the program possess an applied knowledge of fields, such as web programming, system infrastructure, databases, networking, e-business, project management, data center management, security, and information assurance.

Program Goals:
This section is no longer updated in CurricUNET.

Program Emphasis:

Career Options:
Some careers in the IT field require education beyond the associate degree. Careers in the IT field include: computer consultant, help desk technician, instructional lab technician, sales specialist in computer hardware and software, support technician, IT management, computer assembler, systems integrator, network administrator, network specialist, systems engineer, computer operator, systems analyst, and systems administrator.

COURSES REQUIRED FOR THE MAJOR:		UNITS
BUSE 119	Business Communications *Active*	3
CBTE 180	Microsoft Office *Active*	3
INWT 100	A+ Certification Training *Active*	4
INWT 111	Windows Desktop Administration *Approved*	3
INWT 112	Windows Infrastructure Administration *Approved*	3
INWT 120	Network+ Certification Training *Active*	4
INWT 125	Cloud+ Certification Training *Approved*	3
INWT 140	Security+ Certification Training *Active*	3
INWT 145	Linux+ Certification Training *Active*	4
or INWT 200	Ethical Hacking and Penetration Testing *Approved*	4

Total Units   30

DATES & CODES

CIC Approval: 12/10/2020
Board Approval: 03/11/2021   **TOP Code:** 0708.00
State Approval: **State Approval (Unique) Code:** 31310

Subject Area: Information, Network, and Web Technologies   Report Run: 03/23/2021 10:46 AM

Program Area: Computer Information Systems   Program ID: 4203
